

Exhibiting at Ajour 2017, booth no. 3336

Exhibiting at Ajour 2017, booth no. 3336

This week, Tommy & Naheed are ready to discuss optimal air dispersion and significant savings with air engineering technology when we're exhibiting at the annual Ajour expo in Odense. You will find them in [booth 3336](#) on Thursday and Friday.

You can also read [the latest Danish newsletter here](#).

A promotional banner for the Ajour 2017 exhibition. On the left, a red vertical bar contains a red ribbon graphic with the text "SMART air SOLUTIONS" in white. To the right, the FabricAir logo is displayed above the text "Tekstilkanaler". The main banner is black with "Ajour 2017" in large red letters, with "Maskinmestrenes Erhvervskonference" in smaller white text above it. Below the banner, there are line drawings of various air duct components: a T-junction, a straight section, and a large cylindrical duct with three circular openings. The text "Mød os på Ajour-messen, stand nr. 3336" is written in red below the drawings.
